Course: Informatics. Third year

experience

07 – 08 2016 **Summer student job**
Declaration of Goods

projects

- 2019 **Pametna kutija (Brain Box)**
A simple game made for university subject - Computer Graphics.
The project is written in programming language C, using the OpenGL graphic system, as well as using the GLUT library.
Link: <https://github.com/MATF-RG18/RG141-pametna-kutija>
- 2019 **CV Express**
Written in programming language Ruby. Made for university subject - Programming paradigms.
The program aims to create an appropriate CV based on user's input data and design wishes. The program provides simple GUI to enter the necessary data, generates a latex file in the background, but delivers PDF file to the user.
